PULASTIC® FITNESS RANGE

Multi-purpose sports floor systems providing comfort & safety for fitness and wellness environments

GREAT FLEXIBILITY

The Pulastic® Fitness range has been designed to answer the latest developments in the world of fitness and wellness. In the Pulastic® Fitness range you will find carefree, extremely durable and robust flooring solutions for your facility (from fitness areas and sports halls up to relaxing zones, hall ways and changing rooms).

THE ADVANTAGES OF THE PULASTIC® FITNESS RANGE

- Excellent long term resiliency for comfort and injury prevention, so less user fatigue
- Seamless, non-porous and smooth surface for easy maintenance, repair and resurface procedures. Low total cost of ownership
- Addresses to the need for a hygienic and anti-allergic environment that is easy to clean
- High mechanical strength and impact resistance
- Optimal balance between friction and slide
- Wide colour selection with outstanding colour fastness
- Suitable for underfloor heating
- Sustainable through high content of recycled and renewable materials
- Water based sealcoat for maximum indoor clean air protection
- Pulastic® sport floors are manufactured under ISO 9001 for quality management, ISO 14001 for environmental care and CSR certified (ISO 26000 for corporate sustainability)

TURNING YOUR FLOOR INTO A PIECE OF EQUIPMENT

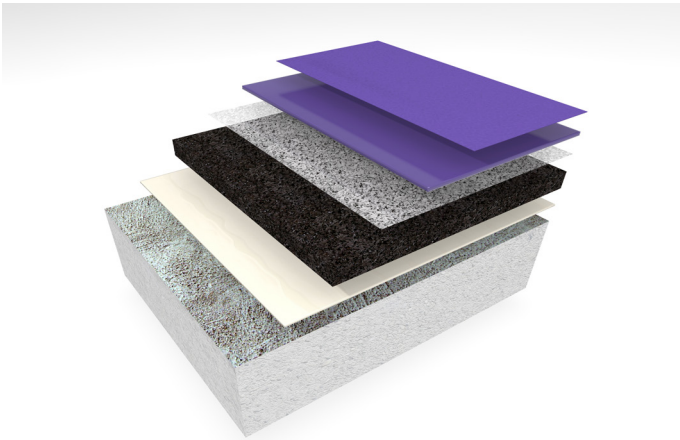

Because of its wide colour selection the floors can easily be adapted to a specific branding, mood or style of your club. Looking at the latest functional and aerobic training concepts, Pulastic® floors fit perfectly. From creating specific zones with different colours, line markings combined with light, numbers, text or even logo's, the possibilities are endless.

SEAMLESS CONSTRUCTION

The Pulastic® Fitness range is composed as follows:

- A special prefabricated granular rubber shockpad. The thickness depends on the final requirements and level of comfort versus mechanical strength
- The shockpad is bonded on the subfloor with a solvent free adhesive
- Then the porefiller and structural self-levelling polyurethane layers are applied
- A silky matt water based sealcoat finishes the floor. A Deco flake finish is an option
- If required additional line markings, logos and/or numbers on top of the sealcoat are applied

Final result is a seamless, easy to maintain, polyurethane sports floor.

	NOMINAL THICKNESS	FLOORING TYPE
